Category	Description	Max points		
Thesis Content	● Scientific quality of the thesis project and methods ● Assessment of the research results and robustness	4		
Research Impact	● Relevance of the research to the field ● Individual contributions to the research ● Originality/uniqueness of contributions	3		
Clarity of the Presentation	● Thesis formatting ● Plot quality, organizational style, understandability, etc. ● Minor editorial issues should not be considered as a negative	3		
Contributions to the Experiment and Community	● A "bonus" to account for work not necessarily captured in the body of the thesis ● Can include e.g. mentoring of junior students, control room shifts, contributions to software projects, hardware work, and technical work ● Also applicable to broader community engagement (outreach, community building in department, etc.)	2
